

Weekly Report 20

Akshay Thontakudi, Varun Lahoti, Gerardo Molina
February 15, 2019

PROGRESS

This week we met as a team to continue working on the revised CAD designs. We fixed some glaring issues in the first prototype, and began working on the second prototype (the Javid-inspired clamp) during the meeting. In addition, we have started working on the VV report, with each member of the group responsible for a different set of verification specifications. Finally, we met with Professor Klaesner to get feedback on the first draft of the report.
